## What to Expect from Your First Examination

What are some of the reasons why you avoid going to the dentist? Is it because of intimidation? Do you feel uncomfortable at your current dentist office? Maybe it's because you leave the dentist office in pain. Whatever the reason may be, we know that it is not good and we want to change that. At Wibrowski Family Dentistry, we are dedicated to changing the way people view the dentist. We are committed to providing comfortable and professional care to each and every client so they leave our office feeling better about their smile and confident that they are on their way to healthier teeth.

Unlike other Edmonton dentists, we like to keep our patients informed about processes and procedures, as well as about what is going on with them. We believe this provides our patients with a level of comfort they do not normally experience. During your first examination at Wibrowski Family Dentistry, we will do an evaluation of your dental health and because we like to keep our patients informed, we will go over all of our findings with you. We will explain your results, as well as what needs to be done in the future. We will also highlight what we believe you are doing well, as far as your dental care is concerned and we will also take the time to speak with you about what you would like to have done or improved. Everything from cosmetic dentistry to restorative dentistry, our experienced staff can handle anything.

We understand that it is difficult to find a dentist you can trust. However, the experienced professionals at Wibrowski Family Dentistry know how to earn your trust. With exemplary services, as well as a kind staff who is willing to do whatever it takes to make you feel comfortable, we are confident that we can restore your confidence.
